Līhu'e Refuse Transfer Station closed until noon Wednesday, March 9

LIHUE – The Lihue Refuse Transfer Station will be closed until noon on Wednesday, March 9.

The temporary closure will allow workers to get caught up on hauling large trailer loads to the landfill, due to yesterday's closure.

There are safety concerns with a lot of heavy equipment moving in the area, so all programs at Lihue Refuse Transfer Station will be affected, including refuse collection, green waste, tires, appliances, scrap metal, propane tanks, motor oil, and motor oil filters.

Services at the Kapa'a and Hanapēpē transfer stations as well as the Kekaha Landfill have resumed today following Tuesday's closures due to weather.

For more information, please call the Solid Waste Division at 241-4841.
